

**CITY OF HANOVER
Storm Water Utility Appeal Form**

Every property owner appealing their Storm Water Utility Fee must complete this form and submit it to the City Engineer. A determination will be made to see if the actual storm water runoff volume from their site is substantially different from the calculations for the land use of their parcel within the Storm Water Utility Report. (Please attach a drawing or survey of the parcel and a location of all buildings and impervious areas.)

1. **Applicant Name** _____

Address _____

Address of Parcel _____

(if different from above)

2. **Lot Size (acres)** _____

3. **Pervious Area (acres)** _____

(Lawns, greenspace, etc)

4. **Impervious Area (acres)** _____

(Buildings, driveways, etc.)

5. **Land Use Classification** _____

(The City's Land Use can be obtained at City Hall)

6. **Please provide any additional information that would assist the City Engineer in reviewing your appeal. (e.g. What is special about your property that would be cause for deviation from the standard storm water utility fees?)**

Signature

Date

All appeals will be reviewed and a determination will be made and returned to the property owner within 3 weeks of the time the City received the Appeal Form.

Please send appeal form to:
