

Hunting Permit

The City of Hanover restricts discharge of firearms within City limits (*Sec. 8.02 Subd. C. 3*). One exception to this restriction is hunting via a permit obtained from the City that meets criteria listed below:

- *Property where hunting will take place is in an Agricultural District ([see zoning map](#))
- *No discharge of any firearm within 1200 feet of any residence.
- * All DNR hunting requirements and restrictions also apply.

If your planned hunting meets the above criteria, property owners and proposed hunters should complete the information below as application for a hunting permit from the City. Return completed form via email or in person to the address listed below.

Please Acknowledge Before Signing:

- The permit holder has permission to hunt on the property identified and has been shown the property boundaries.
- The permit holder understands the regulations detailed in the Hanover City Ordinances related to hunting within the City, as well as understands all other regulations related to hunting in the State of Minnesota.
- The permit holder agrees not to hunt adjacent properties without obtaining a hunting permit for each location.
