

City of Hanover Storm Water Utility Appeal Form

Every property owner appealing their Storm Water Utility Fee must complete this form and submit it to the City Engineer. A determination will be made to see if the actual storm water runoff volume from the site is substantially different from the calculations for the land use of their parcel within the Storm Water Utility Report.

A survey and/or a drawing of the parcel indicating all of the buildings and impervious areas must be included along with the completed form.

Applicant Name _____

Address _____

Parcel ID _____

Address of Parcel _____
(if different from above)

Lot Size (acres) _____

Pervious Area (acres) _____
(lawns, greenspace, etc.)

Impervious Area (acres) _____
(buildings, driveways, etc.)

Land Use Classification _____
The City's Land Use can be obtained at City Hall.

Please provide any additional information that would assist the City Engineer in reviewing your appeal. For example, what is special about your property that would be cause for deviation from the standard storm water utility fees?

Signature

Date

All appeals will be reviewed. A determination will be made and returned to the property owner within three weeks of the City receiving the Appeal Form. Please send the completed Appeal Form and survey/drawing to City of Hanover, Attention City Engineer, 11250 Fifth Street Northeast, Hanover, MN 55341.
